Product Description

Our strong and universal 3 ton baggage tractor is a reliable partner for indoor and outdoor use – especially for maintenance, fast supply of spare parts or as a four-wheel baggage tractor. It easily transports loads up to 3 t and offers maximum ride comfort, high safety and continuous performance with low energy consumption. A powerful diesel engine delivers affecting speeding up and high end speeds, even with load. The comfort suspension protects the driver and the vehicle. Moreover, the hydraulic steering allows accurate driving with minimal effort. Haphazardly cabins with various features, LED lighting and extensive accessories for individual adaptation are available. The performance-enhancing driver's seat with low entry and capacious foot space ensures ergonomic working as well as the easy-to-reach steering wheel and controls.

Comfortable and safe driving

The fully sprung chassis with springs and shock absorbers guarantees traction at all times.

Seeing and being seen: LED lights .

Indurative structure for the most difficult adhibition

Chassis made from advanced thin steel plate.

LED lights: Front lights, rear lights and warning light.

Always acquainted

Comprehensive display and setting instruments always provide a total summarisation on the battery discharge situation, number of running hours, speed and error codes.

Optimum ergonomics

Our 3 ton baggage tractor with easy entry and exit due to the low non-slip footstep.

Capacious operator position with large foot space.

Short distances from the operator position to the connecting and load.

Easy to use hydraulic steering.

Super elastic tyres, also you can choose optional non-marking tires.

Well organized with many storage areas.

Massive excess characteristics

Cabins with various options for outdoor use. Also available without cabin.
