Product Description

Featuring a standard four wheel drive, four steering modes, the diesel aircraft tractor offers excellent functionality for moving Boeing B767 or weight lower than B767 airplane in all weather conditions. The diesel aircraft tractor are front-operator tow tractors which accommodate an operator and a copilot. Powered by EU Stage III Cummins QSB4.5-C110 diesel engines, the TD160 makes you compliant with the latest emissions standards. Loaded with standard features, the TD160 helps you meet all of your aircraft handling needs.

Here is what the TD160 has to offer:

- 16,500KGS gross vehicle weight to handle aircraft up to a B767 in all weather conditions.
- Four wheel drive power train, providing safe, controlled hauling power on all surface cases.
- Front and Rear Wet Disc Brakes for competent braking capacity.
- Several safety features designed in to the TD160 to ensure safe operation.
- Powered by a EU Stage III Cummins QSB4.5-C110 diesel engine to meet all current emissions standards.
- Ergonomic front-operator compartment that accommodates up to two people.
- Low-profile design that allows operators to safely and efficiently handle aircraft.
- Is backed by an industry-leading 1-year/2,000 hours warranty(which come first).
- Factory-direct support with the goal of ASAP delivery of all replacement parts.
